1	Technical requirements	May we please have the span lengths in metres	Refer to Page 21 on item number 14 of the Technical requirements/Evaluation table, which states that the span length for the ADSS fibre must be at least 400m
2	Technical requirements	I have gone through the technical specification and would like to advise that the fibre is over specified and expensive. I would recommend G.657.A1 instead of G.657.A2	The specifications offered are the minimum and bidders must meet these minimum requirements failure of which will lead to disqualification.
